3.05-4.05pm	Business Studies	Spanish	(3.20-4.05) <i>Enrichment Duke of Edinburgh</i>	<i>Study Period</i>	Law

What other activities can I get involved in?

During your time at Carmel, you will have **many opportunities to find out more about your options for progression**. Carmel's P.E.A.K. Project (Progression, Elevate, Aspire, Knowledge) includes careers days, industry visits and university visits. It enables students to get advice about options for taking a year out, as well as opportunities to take up **apprenticeships, including degree apprenticeships**, which an increasing number of Carmel's students are opting to do.

The P.E.A.K. Project also helps students find **work experience placements**. Carmel has strong links with over 200 organisations such as Santander, MyDentist, Rutland House Vets as well as local schools, nurseries and care homes. The college also works in partnership with NHS Trusts in Merseyside, Cheshire and Greater Manchester for placements in a wide range of departments including Physiotherapy, Radiotherapy, Cardiology and Burns & Plastics.

Alongside your chosen subjects, you may also select from a range of:

Enrichment & Skills activities – choose from over 30 options including volunteering, Duke of Edinburgh, team sports, Student Council, First Aid training and sport for fun.

Courses to enhance your study programme and prepare for your career such as Law Society, Tomorrow's Teachers, Tomorrow's Engineers, Medicine Society, HSK Mandarin.
