

Charlotte Bond

Political Sciences

Class of 2020 Alumni

Carmel provided me with opportunities that helped me get to Cambridge. I received lots of support from teaching staff and the HA+ Programme.

“I recently graduated and am currently working as a supply teacher. Cambridge is a uniquely challenging environment, but the opportunities it provides are incomparable. I was taught by leading experts in our field and was part of an incredible network of students and alumni.

I also took part in internships in the Politics and Policy department at the Tony Blair Institute for Global Change, I was heavily involved with the Cambridge Outreach Programme, and was the president of the Speaker’s Society, which definitely made my university experience unique!
