

Lauren Morton

Artist

Class of 2021 Alumni

My experience at Carmel College made me feel confident and prepared to move on to higher education, and I am grateful for my time there. I found my classes more in-depth and engaging and the teachers showed a real passion for their subject.

"This year I graduated from the University of Edinburgh after studying BA Hons painting. My experience has been the best years of education in my entire life. The opportunities provided via talks from successful artists as well as workshops exploring more advanced equipment were extremely valuable. Additionally, the environment and studio space students are granted, allowed my artwork to develop much further than I had ever imagined. The sense of community between fellow students was a great influence on my improvements as an artist.

Currently I am developing a small business selling some art, and I plan to start working full time in the new year!"
