

Beth Laidlaw

Pharmacist

Class of 2020 Alumni

Higher Education

Pharmacy
Nottingham University

Studied at Carmel

Chemistry	A
Physics	A
Maths	A

High School

Rainford High

The high standards of teaching at Carmel made me feel academically prepared for the transition in education to university.

"I am currently working as a pre-registration hospital pharmacist at a cardiac specialist hospital in Liverpool. I undertook a 4 year masters degree programme in Pharmacy at the University of Nottingham and now currently doing the required pharmacist pre-registration training for a year before I qualify as a pharmacist. I absolutely loved university and the course itself and felt it really prepared me for working as a pharmacist within the hospital environment. My aim in the future is to work within the cosmetic and aesthetics industry and with a background in pharmacy this will greatly help me in achieving my goal."
