

Jack Thompson

Civil Servant

Class of 2020 Alumni

Carmel provided me with a huge range of opportunities such as participating in European Youth Parliament and being part of the Student Council. These opportunities gave me the experience and confidence I needed to succeed at university and provided the foundations to building my career.

"I studied Politics at the University of Sheffield and had a great time. I was part of the Politics Society (Polsoc) where I was Editor of the Polsoc paper for a year.

I currently work as a civil servant for the Building Safety Regulator; part of the Health and Safety Executive. I work in the Chief Inspector of Buildings Office as an Executive Assistant to one of the Deputy Directors."
