

# James Lomax

## Primary Assistant Headteacher

### Class of 2012 Alumni

Carmel was a wonderful experience where I developed both academically and personally. It provided the foundations to be successful at university and in later life.

"After Carmel, I went to Leeds Beckett University to study Human Geography and graduated with a 2:1 in 2015. Uni was great, I met a wide range of people and made some great memories.

It was at uni that I did a short placement in a primary school which made me realise my potential in teaching. When I graduated, I did a school direct placement where I qualified with QTS. I then became an Early Career Teacher at a primary school in Wigan where I worked my way onto the Senior Leadership Team. I started that journey as maths leader and I'm now also responsible for the curriculum and teaching and learning."

Higher Education

Human Geography  
**Leeds Beckett**

Studied at Carmel

**Biology**  
**Chemistry**  
**Geography**  
**ICT**

School

**Cowley International
